Walk in the Light's" Lyrics

(Verse 1)

In the darkness, shadows dance, fear takes its flight, But in the distance, there's a glow, a guiding light. With every step, I feel the warmth, I'm drawn so near, In the embrace of the light, I shed my tears.

(Chorus)

Walk in the light, where shadows fade away, In its gentle embrace, find solace, find your way. Illuminate the path, where doubts cease to be, In the radiance of hope, set your spirit free.

(Verse 2)

Through winding roads and stormy nights, I find my grace, In the flicker of the flame, I see my face. With every stumble, every fall, I rise anew, For in the light, I find the strength to pursue.

(Chorus)

Walk in the light, where shadows fade away, In its gentle embrace, find solace, find your way. Illuminate the path, where doubts cease to be, In the radiance of hope, set your spirit free.

(Bridge)

Though clouds may gather, obscuring the sky, The light within remains, never to die. With every heartbeat, it whispers, it sings, A melody of faith, of joy it brings.

(Chorus) Walk in the light, where shadows fade away, In its gentle embrace, find solace, find your way.

Illuminate the path, where doubts cease to be, In the radiance of hope, set your spirit free.

(Outro)

So let us walk, hand in hand, in the light's embrace, With each other's love, we'll find our sacred space. For in the light, we're not alone, we're forever bound, In its eternal glow, true peace is found.
